

FUNDAMENTALS OF ARTIFICIAL INTELLIGENCE (AI)

Course Overview

Through this course, you will be able to:

- Gain insights into the fundamental concepts relate to artificial intelligence (AI), and the services in Microsoft Azure that can be used to create AI solutions;
- Develop awareness of common AI workloads and able to identify Azure services to support them;
- Explore topics in more depth through hands-on exercises in the course, which are based on the contents from Learn modules.

One-Day Programme

Learning Outcome:

By the end of SENTRAL College's Fundamentals of Artificial Intelligence (AI), participants will be able to:-

- Understand Artificial Intelligence workloads and considerations;
- Describe fundamental principles of machine learning on Azure;
- Demonstrate the features of computer vision workloads on Azure;
- Able to Perform Natural Language Processing (NLP) workloads on Azure.

Hands-on Training

Two-Way Communication

Learning Effectiveness
